

HORIZON MILLING FLOUR LOADOUT FACILITY

Owner

Horizon Milling LLC

Size/Capacity

Undisclosed

Completion Time

5 months

Younglove's Services

- Structural engineering
- General construction
- Construction management
- Slipform concrete construction
- Tilt-up construction

Chattanooga, Tennessee

Younglove provided structural design, coordinated the installation of piling, constructed the mat slab, slipformed the structure, and constructed the tilt-up concrete office. Horizon Milling provided the flour loadout bins, electrical, and equipment installation.

Driveway canopies extend on both sides of the building in order to keep the entire trailer under cover.

All structures were built using components and techniques to reduce the number of ledges and voids, promoting the sanitary aspects of the facility.
