

# HAWKEYE PRIDE FEED MILL

Hawkeye Pride Egg Farms, L.L.P.

## Owner

Hawkeye Pride Egg Farms, LLP

## Size/Capacity

100 tons per hour  
1,200 tons per day

## Completion Time

11 months  
Completed 10/2010

## Younglove's Services

- Conceptual design
- Structural engineering
- General construction
- Construction management
- Slipform concrete construction
- Equipment installation

## Corwith, Iowa

This mill features two 10,000-bushel-per-hour ingredient and corn receiving systems and a 90-ton-per-hour grinding system through two roller mills located under a 32-foot-diameter silo that is attached to the mill tower. The mill tower consists of 19 ingredient bins with 1,241 tons of ingredient storage; a 5-ton batching and mixing system, including one 16-bin microsystem; and metered liquid to the mixer. Finished feed is then transferred to holding feed tanks for distribution to each chicken barn.

Additional features to the feed mill include a tank farm for liquid fats, 20 hp air compressor, 650-pound manlift, and 80-foot by 35-foot dock-high warehouse for micro-ingredient bag storage.
